

Listing of Buildings in the early 1970s

Several buildings were listed in the early 1970s, probably as a result of the village plan in 1961 and subsequent reports in 1971.

These were:

- Atworth Terrace and House (Grade II). The listing states that these were built in early to mid-19th Century but are probably of 17th Century origin.

- Bank House and Midland Bank. The building to the left was at the time used by Midland Bank. These two properties are described as early 18th Century.

- Farm Building to the North of the Farm

Also listed was Cherry Brow Farmhouse, on the West of Hadlow Road, which no longer seems to exist.
