

Millennium Stained Glass Window in Christ Church

At the time of the Millennium, there were three WI's in Willaston: Hadlow Green WI, Willastonhey WI and Willaston-in-Wirral WI. To celebrate the Millennium, they joined together to commission a stained glass window in Christ Church. The window was designed by William Davies of Irby. The centre light depicts Dorcas, 'a woman full of good works and alms deeds' (Acts 10, xxxvi).

The windows were made by William Davies Stained Glass Studios in Irby and cost £4,700.

The window was dedicated on 12th August 2000.

The three WI presidents admire the new window.
